Instructor Notes:

Capgemini

SQL server 2012 –
Database Development

Lesson 00:

Instructor Notes:

Document History

12 June 2008	1.0	SQL server 2005	Kishori Khadilkar Vaishali Kunchur	Newly Created
8 Sept 2009	1.1	SQL server 2005	Kishori Khadilkar Vaishali Kunchur	Revamped using new template Incorporated review comments
10 July 2011	2.0	SQL Server 2005	Latha S.	Changes in material made based on integration process
30 March 2012	2.1	SQL Server 2008 – Database Development	Shilpa Bhosle	Changes in Class Book are made as an upgrade to SQL Server 2008
12 July 2013	2.2	SQL Server 2012 new features incorporated	Hareshkumar Chandiramani & Shashank Saudagar	Upgraded from SQL Server 2008 to SQL Server 2012. Rearranged flow of Topics.
11 May 2015	2.3	SQL Server 2012 new features and enhanced for ELTP curriculum	Vaishali Kasture	Rearranged flow of topics
5 May 2016	2.4	SQL Server 2012	Shital Patil	Changes in material made base on integration process as per Capgemini Course Structure

Instructor Notes:

Course Goals and Non Goals

➢ Course Goals
- • Understanding database concepts
- • How to use T-SQL statements for implementing database concepts
- • Writing Stored procedures

Instructor Notes:

Course Goals and Non Goals

➢ Course Non Goals
  • Database administration will not be covered
  • Different services Like SSIS,SSRS,SSAS will not be covered

Instructor Notes:

Intended Audience

➢ Developers.

Instructor Notes:

Day Wise Schedule

➤ Day 1
   Lesson 1: Introduction to RDBMS
   Lesson 2: Introduction to SQL Server 2012
   Lesson 3: Working with Data Types, DDL ,DML and DCL statements

➤ Day 2
   Lesson 3: Working with Data Types, DDL ,DML and DCL statements
   Lesson 4: Beginning with Transact-SQL

➤ Day 3
   Lesson 4: Beginning with Transact-SQL
   Lesson 5: Working with Joins and Subqueries

➤ Day 4
   Lesson 6: Database Objects: Indexes & Views
   Lesson 7: Procedures

Instructor Notes:

Table of Contents

➢ Lesson 1: Introduction to RDBMS
- Introduction to databases
- Data Models in Database
- Properties of RDBMS
- Data Integrity
- T-SQL Language

➢ Lesson 2: Introduction to SQL Server 2012
- What is SQL Server?
- SQL Server Components
- SQL Server Authentication Modes
- SQL Server Version History
- SQL Server Tool & Utilities

Instructor Notes:

Table of Contents

➢ Lesson 2: Introduction to SQL Server 2012 (Cont..)
- • SQL Server System Databases
- • SQL Server – Database Objects
- • SQL Server system Tables
- • SQL Server - Metadata Retrieval

➢ Lesson 3: Working with Data Types, Tables & Data Integrity
- • Working With Data Types
- • Working With Schema
- • Working With Tables
- • Implementing Data Integrity

Instructor Notes:

Instructor Notes:

Next Step Courses

➢ SQL server 2012 services like SSIS,SSRS,SSAS

➢ Database Administration using SQL server 2012

Instructor Notes:

Other Parallel Technology Areas

➢ Oracle
➢ MySQL
